BRIEF ABSTRACT OF LETTER.

Solicits Sanction to debit the Cost of deepening the Gokattes in the Villages of Jenakanahalli and Belakere in the Channapatna Taluk amounting to Rs 260 and Rs 245 respectively ~~to Board~~ and to share the works executed without levying any contribution from the Ryots.

NOTES AND ORDERS.

It will be seen from the records that the Gokattes are mainly for the benefit of the Cattle in ordinary times. The deepening of these Kattes was Sanctioned in 1914 in order to afford relief to the people (Famine Relief works)

It is now urged that the Villagers are too poor to pay any Contributio But it is submitted that no reason have been adduced why the Villagers should not do the earth work which forms the bulk of the estimate The further fact is doubtful if the Kattes will be useful to men for drinking purposes as ~~small ponds~~ the Storm water to be stored in the Kattes would not be wholesome as it is more likely than not that the surface water will be found will not be free from impurities Seen from a sanitary standpoint it would be objectionable to allow the use of such water for drinking purpo Moreover the Special fund is for Sinking or improving Drinking water draw wells and not for Gokattes of the kind referred to. Submitted for orders.

Sir,

I have the honor to state that two estimates for deepening the Gokattes in the village of Tenkanahalli and Belakere in the Chennapatna Taluk for Rs.260/- and 245/- respectively were sanctioned on the 15th September out of Rs. 10,000/- sanctioned in Government Order No. R.577-88/Agri.1-14-3 dated the 24th July 1914 and sent to Taluk for execution of the work with this office No. 545 dated 15-9-1914. The Amildar of Chennapatna reported on 18th December 1915 that contract for the works were given and mutchalikas also obtained from the contractors; that the said works were not carried out then as the said Kattes received water, and that permission might be granted to carry out the works during 1915-16 as the scarcity of water would be felt owing to insufficiency of rain during the current year.

2. The Amildar was informed in this office No. 1340 dated 8-1-1916 that the works should have been carried out during 1914-15 only and that there was no special fund available for this year. He was further told that the question of sanctioning the works would be

considered

1905 - 16.

Enclosure No. 1 File

Requests for special Sanction of Govt may kindly be accorded for the execution of the estimate for deepening the Gokalles in the Villages Jankanahalli Belahere in the Chen: Tk for Rs 2607-14-0 respectively & out of the Drinking water wells fund without any contribution

considered after the receipt of a report from him in the matter of the recovery of contribution from the ryots. In reply the Amildar states in his Ittilla No. 434 dated 1-4-1916 that the works were sanctioned as Famine Relief Works, that the same were not carried out last year as there was water in the kattes; that the ryots were not asked to pay contribution when the works were sanctioned; that he (the Amildar) is personally aware of the difficulty to which the villagers are put to for want of water during this year; that the villagers are really poor to pay contribution; that if Mungaru Rain does not come in time there will be a great difficulty for water and that permission may be granted to carry out the works in question. The Government Order No. 5248-59/Sani.38-12-38 does not authorise me to sanction such works without contribution from the villagers.

3. I therefore request that special sanction of Government may kindly be accorded for execution of these works out of Drinking Water Wells Fund without any contribution.

The vernacular file is herewith submitted.
